for the Arts

Conseil des arts
du Canada

Art enables us to escape the constraints of everyday life by exploring the imaginary—that which extends, enhances and impacts our lives.

Art thrives on diversity. In Canada, art calls on us and brings us together. Globally, it expresses our humanity and our hopes for inclusivity and longevity.

In your community, the Arts, Culture and Digital Transformation Summit acts as a mobilizing force. The Canada Council for the Arts is proud to support it, as it is an opportunity for encounters and dialogue between artists and their audiences.
