## THEATRE ARTS FACILITY POLICIES

Theatre Arts technicians consist of professional staff and participants in our theatre production practicum programs.

Theatre Arts technicians are a mandatory component for use of all production environments. The actual hours of production labour required will be determined by Theatre Arts and will be based on the final residency requirements. Production labour overtime regulations must be adhered to as part of The Banff Centre's collective agreement, and are the financial responsibility of the residency.

Requests for scenic, props, or costume services must be submitted in advance and will be considered based on availability and scheduling.

If you require a soundproof venue, please identify this in your application.

An additional fee will be added for any builds, subject to the scale and scope of the project.
